Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

1.

Warning

Section lacks heading. Consider using `h2 - h6` elements to [add identifying headings to all sections](#), or else use a `div` element instead for any cases where no heading is needed.

[From line 52, column 13: to line 52, column 51](#)

`<section id="userAge" class="white-bg"></sect`
2.

Warning

Section lacks heading. Consider using `h2 - h6` elements to [add identifying headings to all sections](#), or else use a `div` element instead for any cases where no heading is needed.

[From line 54, column 13: to line 54, column 59](#)

`<section id="userAgeFeedback" class="white-bg"></sect`
3.

Warning

Section lacks heading. Consider using `h2 - h6` elements to [add identifying headings to all sections](#), or else use a `div` element instead for any cases where no heading is needed.

[From line 56, column 13: to line 56, column 61](#)

`<section id="htmlQuestionnaire" class="white-bg"></sect`
4.

Warning

Section lacks heading. Consider using `h2 - h6` elements to [add identifying headings to all sections](#), or else use a `div` element instead for any cases where no heading is needed.

[From line 58, column 13: to line 58, column 49](#)

`<section id="score" class="white-bg"></sect`
5.

Warning

Section lacks heading. Consider using `h2 - h6` elements to [add identifying headings to all sections](#), or else use a `div` element instead for any cases where no heading is needed.

[From line 60, column 13: to line 60, column 51](#)

`<section id="homeBtn" class="white-bg"></sect`
6.

Warning

Consider using the `h1` element as a top-level heading only (all `h1` elements [are treated as top-level headings by many screen readers and other tools](#)).

[From line 44, column 17: to line 44, column 30](#)
